Always defining the right and defending the oppressed, his life to us for more than half a century has been a daily sermon. TIPPANY'S LATEST ENTERPRISE SHOWS THE PROGRESS OF AMERICAN INDUSTRY.

From The New York Sun.

The foundations have been laid at Forest Hill, a northern suburb of Newark, for a big manufactory to be operated by Tiffany & Co., the Union Square jewellers. The factory will be completed next spring, and it will furnish employment for 350 hands. The present factory of the company in Newark will be alandoned. For a number of years all of the plated ware said by Tiffany & Co. has been manufactured in Newark. For more than a year the company has been making experiments looking to the manufacturing also of high-class table cuttery. It has for some time purchased English blades and manufactured its own mountings. Manager Charles T. Cook of the firm said yesterday that they had at last determined to manufacture their own cuttery for a number of reasons.

the firm said yesterday that they had at ass determined to manufacture their own cuttery for a number of reasons.

"Our experimental work shows that we can make as good blades as are made in Empland," said he. "Our mountings are better. We can compete in price because of the tariff, and we can produce what the people want on this side of the water in the matter of styles and sizes. One of the difficulties we have encountered in dealing with foreign cuttery manufacturers is that they are too conservative. They insist on our taking what they make, and will not chause their styles to make what conditions of Me in this country demand. Now that we are roling to manufacture entiery, we require increased facilities, and therefore we are building the new factory at Forest Hill. We expect to have 100 men employed on table cuttery at first, but the industry is fable to grow. Our menticure set are now made in England from designs made by us. We will probably make them ourselves hereafter, and the manufacture of pocket cuttery may follow.

"There is no politics in this. It is purely a matter of business. There was a time when the only workmen we employed were a few watch repairers and engrayers. We imported nearly everything we sold. Now there is hardiy a thing we sell which we do not make nearestices. Plans, over ment can be seen to be the manufacture of the manufacture of politics in this.

# METROPOLITAN OPERA BOUSE AFFAIRS.

THE COMPANY WILL PROBABLY REORGANIZE AND REBUILD THE HOUSE.

opera promptly. A meeting of the stockholders was held yesterday at the office of James A. Roosevelt, the president of the company at No. 33 Wall Street. About thirty stockholders were present, but some of them held proxies for enough absent ones to constitute a quorum of the full company. Samuel D. Babcock presided. The result of the directors' meeting of Thursday was presented in the form of a written report, sketching a plan for the financial reorganization of the company, and urging immediate action, in order that opera might be given if possible this season. A resolution was passed that the plan for reorganization be sent to all the stockholders for their careful consideration, and the meeting adjourned. Another meeting will be held on Friday of next week at the Mutual Life Building.

The calculations are that the full restoration of the house so that opera can be properly presented and audiences properly accommodated, will cost from \$300,000 to \$350,000. The object of reorganization is to raise such a sum as this, and also to pay off the second mortgage on the house, of \$210,000. mortgage is held in the form of bonds by the stockters of the company at the rate of about three bonds to a box. In order to put the company or the desired financial basis, the mortgage will probassersed for a sum sufficient to pay it, and to meet the cost of the restoration of the house. Any who do not see fit to meet the assessment will then cease to be members of the company, and those who remain will consistiute the organization and conduct its affairs for and by themselves. The sentiment among the stockholders who were represented at the meeting of yesterday seemed to be in favor of teorganization, and of an attempt to get the house ready for this season.

A proposition has been prefer to pay it. ably be foreclosed and the stockholders will be

A proposition has been made by James Harriman, one of the box-holders, to organize a National Opera-House Company, which shall buy the Metropolitan for \$82,000,000, and equip it in such a way as to make it second to no opera house in the world. He thinks that many subscribers could be found outside the city who would be glad to have boxes at their disposal when they were in New-York, the boxes being remed to others when their owners were out of town. The present company, or what is left of it after reorganization, would naturally form the nucleus of the new company.

SENATOR HILL PURCHASES THE EMMET VILLA. Albany, Sept. 9 (Special) .- After considerable househunting in this city and its suburbs, assisted by General and Mrs. Farnsworth and Colonel John S. McEwan, Senator David B. Hill this afternoon purchased the Emmet villa, on the Van Rensselaer Boulevard. Colonel McEwan acting for him. The price is kept a secret, but is thought to be in the neighborhood of \$28,000. The house and grounds cost Joseph K. Emmet \$65,000. Senator Hill would give no satisfactory answer as to what use he intended to make of the place; neither would he affirm or deny that he was going to be married. The estate is on high ground and commands a broad view of the Hudson River and distant hills. The house contains about thirty rooms, and in one wing are complete Russian and Turkish baths, with a six-foot plunge bath. The billiard and smoking rooms are models of completeness. There is a lake of three acres of pure spring water on the premises, which was stocked with game fish by seth Green.

# MORE BICYCLE RECORDS BROKEN.

ZIMMERMAN BEATS NANCY HANES'S TIME FOR A MILE; IN 2:06 4-5.

Springfield, Mass., Sept. 9 .- Another day of recordsmeshing has passed into the history of bicycle racing. Ziamerman again distinguished himself, but he shared his laurels with W. W. Windle, the fast Milibury rider. Zimmerman first started for Nancy Hanks's mile record with a flying start. He did not succeed, but established a bicycle record of 2:08 4-5. Windle next tried the flying start, half, making it in 1:00 1-5. George F. Taylor lowered Zimmerman's flying mile to 2:08 1-5. The New-Jersey ride was then sent after Nancy Hanks a second time, eclipsing her record made on a regula-tion track, by 1-5 of a second. His time was 2:06 4-5.

MR. CLEVELAND BOWS TO TAMMANY.

HE SAYS HE CAME HERE TO MEET POLITICAL FRIENDS AND THAT HIS VISIT

WAS SATISFACTORY. After thirty-six hours spent in conclusting the Snapper" element of the party Mr. Cleveland started back to Buzzard's Bay at 5:30 p. m. yesterday, going as he came by the Fall River Line. He was accompatible by ids private secretary. Robert Lincoln O-about three quarters of an hour, mostly on the same lines as Mr. Cockran. He said that the Democratic party had Brien, of Boston, and William C. Whitney rode down to the steamship pier with the fallen idol of the Mugwamps and saw him off. Just before getting into the carriage which conveyed him to the steamer Mr. Cleveland said to a group of reporters who were watelding his departure, that he had come to New-York of his own volition, and not on anybody's in vitation. "My object," he said, "was to meet political friends whom I desired to consult. The result has been quite satisfactory, and I think that

the prospects for Democratic success are good."

Those who have the best means of knowing say that Mr. Cleveland, in spite of the jaunty air he assumed and his glib words, went away a grievously disappointed man. He had humbled himself before the Tammany Idol and abjectly sought the favor of the high priests of the "machine."

Up to 11 o'clock yesterday morning there were no on Mr. Cleveland at the Victoria Hotel. Not even the guests of the evening before came co say how much they had enjoyed themselves in his company. Liufenant-Governor sheehan, one of the triumvirate, hurried off to Buffalo yesterday morning without so much as paying his respects to his host and former townsman. It was Mr. Sheehan who received the telegraphic message on Thursday afternoon that blasted the hopes of the Cleveland crowd. The message came from senator Hill at Albany. Up to the time of its receipt the ex-President and his friends were in high hopes of seeing the card of the junior Senator of New York among others of the men who had opposed the Chicago nominee, asking to be admitted to the presence at the Victoria Hotel. But neither the card nor the Senator appeared. Only a telegram came to the Licutenant-Governor, signed "David B. Hill," saying that it would be impossible for him to come to New-York during Mr. Cleveland's stay. When the contents of this message were made known by Mr. Sheehan to Mr. Whitney, and Mr. Dickinson, and by them to the Democratic candidate for President, a deep gloom fell upon the Cleveland camp. The arrangements for a public reception which it was pro-posed to hold at the hotel on Friday morning were at once abandoned. There was nothing left to do but te go back again to Buzzard's Bay. It is a significant circumstance that according to the original arrangement there were to be ten persons at Mr. Cleveland's dinner on Thursday evening. Besides Messrs, Murphy, sheehan, Croker, Whitney and Dickinson, there is little doubt that it was expected that two of the extra four places were to be filled by Senator Hill and a fireworks were set off, while a band played lively friend he might bring with him from Albany.

Mr. Croker got no nearer Mr. Cleveland yesterday than Tammany Hall, and Mr. Murphy's closest point of contact with the Democratic candidate was the State headquarters in West Twenty-fourth-st. Neither would task about the dinner, except to say that it had been an enjoyable occasion.

Before the start for the return was made, Mr. Cleveland had a number of callers. The most important political personage among them was Hugh Molaughlin. The "boss" of Brooklyn and Kings County had little to say, and he did not stay long to say it. Others who came were Colonel William L. Brown, State Senator and editor of "The News"; John O'Brien, the well-known aqueduct contractor Onces R. De Freest, secretary of the Democratic State Committee; Raifrond Commissioner Samuel A Beardsley, J. Rhinelander Dillon, Macgrave Coxo.

Colonel Eschard Lathers and R. W. Gilder.
The Tammany "warriors" discussed Mr. Cleveland's visit and dinner during yesterday and last evening visit and dinner during yesterday and last evening with great relish. They had been promised "the carth," according to the version of particulars which had reached them from the parlor floor of the Victoria Hotel, and they were correspondingly elated. The Mugwump and "anti-Shappers," on the other hand, were silent and thoughtful. A Democrat who had been sindying up the situation said last evening:

"I doubt very much if Mr. Cleveland has gained anything by his chase to this city after Hill. His trip here may have increased somewhat the ardor and enthusiasm of the Tammany men and the 'snappers,' but among the independent Democracy he will lose fully as much support as he will gain on the other side. I doubt the Wisdom of the move."

RINGING CHEERS FOR THE TICKET. XVITH DISTRICT REPUBLICANS SHOW THEIR EN-

THUSIASM-MR. MASON'S SPEECH. The regular monthly meeting of the Republican Organization of the XVIth Assembly District (old XXth). was held last evening at Brevoort Hall, No. 154 East Fifty-fourth-st. The audience was large and appreciative, and the applause which was given was earned. The speaker of the evening, ex-Congressman William yet fully decided, but there is an increasing proba-bility of its being rebuilt and put in order for grand Goode. He was popular from the start, and his enstatements from several men in the audience who had been benefited by the McKinley law, both as manufacturer and employe.

"Our Democratic friends," said Mr. Mason, "shout 'Billion-Dotlar Congress,' but you can't get them to point out any item; they dare not. Part of that noney was given to the widows and orphans of soldiers who had fought or died for their country. There can be no more sorrowful sight to my eyes than that of a homeless soldier out in the pitiless streets. homeless, with broken pledges of Abraham Lincoln in his hand. Thank God! General Harrison, who himself knew what it was to face shot and shell, recognized the fact that no country had prospered which had not defended the soldiers who had defended it.

"The Congress that followed this so-called 'Billion Dollar Congress,' cut down to one-balf a bill which was to put \$350,000 at the disposal of the President to fight the cholera should it get a foothold in this city. Now an extra session will be necessary."

He pointed out that the tariff, as applied by the

McKinley bill, was not a tax, but a stimulant. "The Force bill cry," said Mr. Mason, " is a bugabo to detract attention from the real issues to be fought. The Elections bill simply provides that judges of the United States District Courts shall appoint inspectors from both parties. The Democrats, in many places, fearing that they would be defeated in the South by the honest vote of citizens of both colors, stole ballot-boxes right and left at the point of the pistol. In few cases were Republican inspectors allowed to serve. The law was intended to make the count a

fair one."

A storm of appliance greeted Mr. Mason when he closed his address. Hats were thrown into the air and the meeting adjourned with three cheers for the candidates of the Minneapolis Convention.

# TAMMANY MAKES ITS PLEDGE.

PROMISING IN FORMAL RESOLUTIONS TO SUP-FORT GROVER CLEVELAND.

The Temmany Hall general committee met at the Four-teenth-st. vigwam last evening for the first time since the Chicago convention and patiently listened to floods of cloquence about Grover Cieveland and other Democratic eloquence about Grover Cleveland and other Democratic issues for nearly three hours. Richard Croker occupied a seat on the front bench. About him were John R. Fell-ws. B. F. Mertin, W. Bourke Cochran, Thomas F. Gliroy and other Tummany leaders. Nelson Smith, chairman of the general committee, presided. After he had talked for awhile about "a cempaign of education" the campaign committee reported on places for holding the full primaries, and the report was referred to the executive committee.

W. Bourke Cochran, who at Chicago predicted that Cleveland could not carry New-York, presented resolutions

Cleveland could not carry New-York, presented resolutions indersing in general terms the Chicago platform, puticularly indorsing in general terms the chicago platform, puti-ularly denouncing the so-called "Force Bill," and pledging the support of Tammany to Cleveland and Stevenson. Mr. Cochran then took the platform. He said that he was certain of a Democratic victory. He had been apprehensive, but his fears had been removed by the letters of Cleves. Cleveland, who was the representative. Grover Cleveland, who was the representative of the people, of the Pernocratic party in general, and of the Democracy of Tammany Hall. That Grover Cleveland was a representative of Tammany Hall seemed to strike those present as a new idea and they applicated vigorously. Mr. Cochran spoke in favor of removing the tax on State bank notes. He thought the States should 52 allowed to have their own currency. He found fault with the Reciprocity plan because under it the power of fixing certain duties rested in the President. That was unconstitutional, was reversing the progress of Grover Cleveland, who was the representative of the the power of fixing certain duties rested in the President. That was unconstitutional, was reversing the progress of the ages, and going back to the despotism of Charles I. Reciprocity itself, he said, he favored. He then spoke of "the alleged free-trade plank of the Democratic platform," He wanted to know how there could be free trade in the United States when both parties were committed to raising revenue by customs duties. His objection to the Republican tarif was that it was too high. He was Republican tariff was that it was too high. He was willing to admit that there were strong arguments for some protection to infant industries, and added that the Democratic believed in a moderate tariff levied to raise revenue but ample for all the projection that the country really needed. "He who says," said Mr. Cochran, "that the Democratic party is committed to free-trade, says that the Democratic party is committed to free-trade, says that diversified that not for the property is not true, and if he is of ordinary intelligence he flag in its attention. knows it is not true. He who says that the Democratic

party has any other object than to limit revenue to the

Democratic platform."

Without stopping to examind his platform's declaration that any protection at all was unconstitutional, he went on to say that after all the chief issue was the Federal Elections bill. This would ruin the country. His reason for be-Democratic platform." Heving this was evidently founded on his knowledge of his

DEMOCRATIC FACTIONS IN GENESEE. A CLEVELAND COMMITTEE "TURNED DOWN" BY

Batavin, N. Y., Sept. 9 (Special).-For some time past there has been perceptible discord in the Demo-cratic party here, and since the Democratic papers have been strangely silent on the misunderstanding, it behooves a Republican newspaper to tell the news. There are two General Committees here, both Demo cratic and both " regular," as they allege. Osborn in the chairman of the General Committee that | 180 assumes to be part of the State machine, and takes orders from Hill and Sheehan. Joseph Hall 1s chairman of the Cleveland Committee, which declares it should be recognized in this campaign. The that they couldn't work together. So the question of regularity was referred to the State Committee. Who can doubt the result? Yesterday Nehemiah Osborn received a letter from Lieutenant-Governor Sheehan informing him that his committee was regular "kickers." To-day Joseph Hall is the maddest man in Genesee County. He was too angry to talk coherently. The Hill men are chuckling at the triumph of the machine and the Republicans are enjoying this quarrel to their hearts' content. The Democratic vote in Genesee County this year can be counted

A large Harrison and Reid tanner was swung across Meserole-st., and as it was raised The first speaker was William Patton Griffith, of New-York. Mr. Griffith discussed the issues of the campaign at length, and every mention of the names of the candiwas cheered to the echo. R. R. Wheeler aroused

great enthusiasm by remarking: "One of the first men to answer President Lincoln's call for soldiers was Benjamin Harrison. Now another call has come, and this time from the American people. Benjamin Harrison has been their ruler for four years, and they want him for four years more, and the will of the people is the law of the Republic."

After a number of other men had nade brief speeches, George Herriman delivered a lecture on the tariff, illustrated with stereopticon views. The audience followed him with close attention, and his sailles against the Deocracy were greated with applause. It was fully II o'clock when the speech-making was over, but before the people dispersed, Mr. Benjamin jumped to his feet and called for three cheers for the ticket. They were given with a will, and the most successful meeting held in the Sixteenth Ward in the present campaign was over.

#### THE MILL HAS NOT BEEN CLOSED. To the Editor of The Tribune.

Sir: I, as selling agent for the production of Sir Titus Salt's Bridgeport mill, wish to deny emphati-cally that the Bridgeport mill has suspended, as per article in to-day's "New-York Times." on some grades of plushes has fallen considerably, but on other grades of plushes the demand has increased, and, as a matter of fact, our Bridgeport mill turned out, for the week ending September 3, more goods by some 200 pieces, than they have ever done since the establishment of the mill at Bridgeport, in 1800. Our output in Bridgeport is, therefore, increased, and not reduced or suspended, as the article states. ANTI-MONOPOLISTS OPPOSED TO CLEVELAND. Chicago, Sept. 9 (Special).—J. F. Henry, a New-York politician, who presided at the Anti-Monopoly Convention in 1884, which nominated Benjamin Butler for the Presidency, is in the city. Mr. Henry is a Republican this year. "Mr. Cleveland will be beaten out of sight in New-York," said Mr. Henry. "And he will owe his defeat in a large measure to those who were active in the Anti-Monopoly League when he was a candidate for Governor of New York. The league then numbered over 100,000 voters. One of its committees practically wrote the platform on which Cleveland was elected Governor, and the league supported him because the convention accepted its anti-monopoly viws After Cleveland was elected he broke every promise made to the league to appoint men to office fri the lengue's principles. In 1888 he encountered the op-position of the members of the league and will feel the strength of the vote of the members of the organiza-tion this year."

Turner, Joseph P. Jardine, president of the association, Robert Todd, and the presiding officer. All the addresses were brief. The speakers all aimed at one point, and that was to impress on their hearers the necessity of their heartily supporting the Republican nominees, but all the remarks were so pleasantly diversified that not for one moment did the audience

SEPTEMBER ELECTIONS IN MAINE. CHAIRMAN MANLEY'S PERTINENT REVIEW OF THE RESULTS IN FORMER PRESI-

DENTIAL YEARS. Augusta, Me., Sept. 9.-Joseph H. Manley, chairman of the Republican state Committee, gives to the press the following statement:

"The returns from every section of the State giving the detailed convass are very complete and full of promise. It is wen, however, before making an estimate of what the result will be Monday, September 12, to review the vote in this State at September elections in Presidential years for the inst quarter a century. The following tabulation shows that for the last twenty-five years the Republican vote has re mained practically the same though slightly increasing:

55,378 clares it should be recognized in this campaign. The two have continually ablased each other and fought over the local organization until it became necessary for one or the other to be recognized, as it was clear type of the continual of the co Is 1872 to 1888 was only 7,500, while the lowest Democratic vote was in 1872 and highest in 1889, and lit varied 19,000. In 1880, in september, the Republicans lost the State. In 1884, when the standard bearer of the party was our own distinguished citizen and statesman, we had an absolute majority of 15,000, and in 1888, when the party was led by that great statesman, Benjamin Harrison, our absolute majority was 13,000, but in both these years the Democratic party practically abandoned the light in the last few days of the contest, and did not throw its full vote. It must be remembers that this year they have the best organization they have had in Maine in years. They have sheet the election of 1890, thoroughly organized every voting precinct in the State. They have been supplied with funds, and are using every means known to the art of political warfare to polit a large vote. They have ignored the National contest and appealed to petty selish and local issues. We vote for the first time under the Australian Bailot law, which applies to every city, town and plantation, and the effect will be to reduce the total vote thrown, thus reducing the Republican majority. Yet, the interests at stake in this contest are so great, and the ends the Republican party aims at so beneficent, that there is no doubt as to the result. The Republicans are assured of a substantial victory. We shall elect our Governor, four Representatives to Congress, a large majority of doubt as to the result. The Republicans are assured of a substantial victory. We shall elect our Governor, four Representatives to Congress, a large majority of both branches of the Legislature, securing the rejection of a United States Senator and the county ticket in nearly every county in the State. The State has been stumped by speakers of National and State reputation, who have kept to the front the great questions of protection, reciprocity, honest money and presented the issues of the day with zeal and ability.

# TENNIS AT BAY RIDGE.

THE MARINE AND FIELD CLUB WINS ITS MATCH WITH THE CRESCENT ATHLETIC CLUB.

An exciting tennis match was played at Bay Ridge yesterday afternoon between teams representing the Crescent Athletic Club and the Marine and Field Club of Bath Beach. This was a return match, the first having been played at Bath Beach, the Marine and Field Club winning. Grant and Post played for the Crescents, and Halsey and Chamberlain for the Marine and Field Club. Some remarkable plays were made on both sides, and there was plenty of applause from the partisans of both teams. berlain and Post covered the court well for their reperiain and rost covered the court well for their re-spective sides, and Grant's smashing was at times of a high order. The first and third sets went to the Crescents, their opponents taking the second and fourth. It was rather dark when the deciding set was begun, but this did not seem to spoil the play. and the set proved to be the closest one of the match The Marine and Field Club were inferior to their opponents in volleying, but pulled out of many tight places by accurate and well-timed lobbing. In this set the Crescents held the lead up to the ninth game. In the tenth a stroke of Halsey which was really remarkable considering the darkness, tied the score, remarkance considering the darks, the next two games and the match by persistent lobbing.

In the Crescent Club handicap but two matches

were played, as nearly all the interest was centred in the interclub match. One of these matches, the final in the Class C singles, was unfinished, and will be played over to-day. This afternoon will finish the tournament, as the final rounds have been reached in all the classes. The scores:
Doubles-Match between Marine and Field Club

#### HAS MINISTER PORTER RESIGNED.

A REPORT TO THAT EFFECT PUBLISHED IN ROME BUT NOT YET CONFIRMED IN WASHINGTON. Rome, Sept. 9.-The "Italie" announces the resig

nation of Albert G. Porter, the United States Minister to Italy. Washington, Sept. 9.—The announcement contained in the cable message from Rome that Mr. Porter, the American Minister to Italy, has resigned, will not surprise persons in official circles here if the report should be verified. It has been expected for some

time that Mr. Porter would resign as soon as the "incident" with Italy, arising out of the lynching of the Italians in New-Orleans, had passed sufficiently into history to permit of his resignation, without an suggestion that it was due to the entanglement arising while he was United States Minister to Italy. At the time Mr. Porter returned to Rome after & prolonged absence, occasioned by the recall of his resignation to re-enter politics; and it is presumed als resignation to re-enter pointies; and it is presument that this announced intention has been carried out, through the absence of President Harrison, his private secretary, Mr. Halford, Secretary Foster, of the State Department, and others, delays its verifica-tion at Washington.
